Financial results reported in this document are preliminary. Final financial results and other disclosures will be reported in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2019, and may differ materially from the results and disclosures in this document due to, among other things, the completion of final review procedures, the occurrence of subsequent events, or the discovery of additional information.

1Q19 Highlights

Earnings

- Net income of \$5.9 billion and diluted EPS of \$1.20

Returns

- Return on assets (ROA) = 1.26%
- Return on equity (ROE) = 12.71%
- Return on average tangible common equity (ROTCE) ⁽¹⁾ = 15.16%

Highlights

- Positive business momentum with strong customer activity
 - 'Customer Loyalty' and 'Overall Satisfaction with Most Recent Visit' branch survey scores reached 3-year highs in March
 - Year-over-year (YoY) growth in period-end loans
 - Period-end commercial & industrial loans increased 4% and credit card loans increased 6%
 - Primary consumer checking customers ⁽²⁾ up 1.1% YoY; the 4Q18 sale of 52 branches reduced the growth rate by 0.5%
 - Increased debit and credit card usage YoY
 - Debit card point-of-sale (POS) purchase volume ⁽³⁾ up 6% and consumer general purpose credit card POS purchase volume up 5%
 - Higher loan originations in nonconforming mortgage, auto and small business YoY
 - High quality nonconforming mortgage loan originations of \$11.3 billion, up 35%
 - Consumer auto originations of \$5.4 billion, up 24%
 - Small business ⁽⁴⁾ originations of \$621 million, up 6%
- Returned \$6.0 billion to shareholders through common stock dividends and net share repurchases, up from \$4.0 billion in 1Q18
 - Quarterly common stock dividend of \$0.45 per share, up 15% YoY and 5% linked quarter (LQ)

(1) Tangible common equity is a non-GAAP financial measure and represents total equity less preferred equity, noncontrolling interests, and goodwill and certain identifiable intangible assets (including goodwill and intangible assets associated with certain of our nonmarketable equity securities but excluding mortgage servicing rights), net of applicable deferred taxes. The methodology of determining tangible common equity may differ among companies. Management believes that return on average tangible common equity, which utilizes tangible common equity, is a useful financial measure because it enables investors and others to assess the Company's use of equity. See page 37 for additional information, including a corresponding reconciliation to GAAP financial measures. (2) Customers who actively use their checking account with transactions such as debit card purchases, online bill payments, and direct deposit; reported on a one-month lag from reported quarter-end so as of February 2019 compared with February 2018. (3) Combined consumer and business debit card purchase volume dollars. (4) Includes credit card, lines of credit and loan products (primarily under \$100,000 sold through our retail bank branches).

1Q19 Earnings

- Earnings of \$5.9 billion and diluted earnings per common share (EPS) of \$1.20 included:
 - \$778 million seasonally higher linked quarter personnel expense (*recognized in employee benefits expense, and commission and incentive compensation expense*)
 - \$345 million of net equity gains on deferred compensation plan investment results were largely offset by \$357 million in employee benefits expense (*net gains from equity securities and employee benefits expense*)
 - Please see page 33 for additional information
 - \$608 million gain on the sale of \$1.6 billion of Pick-a-Pay PCI mortgage loans (*all other noninterest income*)
 - \$150 million reserve build ⁽¹⁾ (*provision for credit losses*)
 - \$148 million gain from the sale of Business Payroll Services (*all other noninterest income*)
 - An effective income tax rate of 13.1%, which included \$297 million of net discrete income tax benefits

(1) Reserve build represents the amount by which the provision for credit losses exceeds net charge-offs, while reserve release represents the amount by which net charge-offs exceed the provision for credit losses.

Year-over-year results

(1) 1Q19 capital ratio is a preliminary estimate. Fully phased-in capital ratios are calculated assuming the full phase-in of the Basel III capital rules. See page 36 for additional information regarding the Common Equity Tier 1 capital ratio.

Loans

Average Loans Outstanding

(\$ in billions)

Period-end Loans Outstanding

(\$ in billions)

Average

- Total average loans of \$950.1 billion, down \$876 million YoY and up \$3.8 billion LQ
 - Commercial loans up \$6.4 billion LQ driven by higher commercial & industrial loans
 - Consumer loans down \$2.6 billion LQ as growth in high quality nonconforming first mortgage loans and credit card loans was more than offset by declines in legacy consumer real estate portfolios including Pick-a-Pay and junior lien mortgage loans due to run-off and sales, as well as lower other revolving credit and installment loans, and auto loans
- Total average loan yield of 4.84%, up 5 bps LQ and 34 bps YoY reflecting the repricing impacts of higher interest rates

Period-end

- Total period-end loans of \$948.2 billion, up \$941 million YoY as growth in high quality nonconforming first mortgage loans, commercial and industrial loans, and credit card loans was largely offset by declines in legacy consumer real estate portfolios including Pick-a-Pay and junior lien mortgages, as well as all other major loan categories
 - Strategic sales of Pick-a-Pay PCI loans and Reliable Financial Services Inc. (Reliable) consumer auto loans totaled \$6.6 billion from 2Q18 – 1Q19
- Total period-end loans down \$4.9 billion LQ on lower consumer and commercial loans
 - Please see pages 8 and 9 for additional information

Commercial loan trends

Commercial loans up \$8.8 billion YoY and down \$1.2 billion LQ:

(\$ in billions, Period-end balances)

B= billion, MM = million

Commercial and industrial (C&I) loans down \$1.1 billion LQ from a strong 4Q18

Including declines...

- \$3.0B in Corporate & Investment Banking including:
 - \$4.0B decline in Asset Backed Finance reflecting the rebound in the capital markets in 1Q19
 - Partially offset by \$1.1B increase in Corporate Banking driven by growth in industrials and energy
- \$1.0B in Commercial Banking driven by lower Government & Institutional Banking, and Business Banking
- \$160MM in WF Auto – Commercial on seasonally lower dealer floor plan utilization

...partially offset by growth:

- \$2.1B in Commercial Capital
 - \$1.1B in Commercial Distribution Finance on seasonal strength
 - \$1.3B in Capital Finance on customers' origination activity and working capital needs
- \$1.6B in the Credit Investment Portfolio driven by purchases of collateralized loan obligations (CLOs) in loan form

Commercial real estate loans up \$460 million LQ primarily driven by slower run-off of previously purchased loan portfolios

- CRE mortgage up \$1.1 billion due to slower run-off/amortization of portfolios purchased in prior years, as well as modest origination growth
- CRE construction down \$639 million reflecting cyclicity of commercial real estate construction projects and continued credit discipline

Consumer loan trends

Consumer loans down \$7.9 billion YoY and included \$6.6 billion of strategic sales of Pick-a-Pay PCI loans and Reliable consumer auto loans; down \$3.7 billion LQ and included \$1.6 billion of Pick-a-Pay PCI loan sales

(\$ in billions, Period-end balances)

B= billion, MM = million

Consumer Real Estate 1-4 Family First & Junior Lien Mortgage

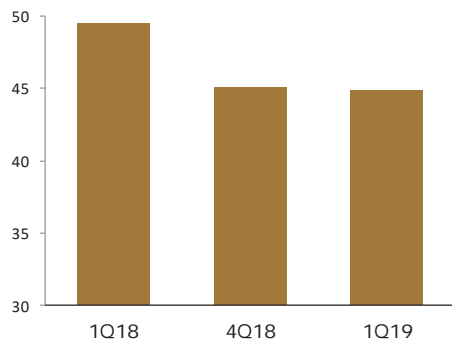

- First mortgage loans up \$1.9B YoY and down \$520MM LQ
 - High quality nonconforming loan growth of \$4.2B LQ driven by \$10.5B of originations; excludes \$776MM of originations designated as held for sale in anticipation of future securitizations
 - Partially offset by a \$2.3B LQ decline in Pick-a-Pay mortgage loans which included \$1.6B of PCI loan sales
- Junior lien mortgage loans down \$4.8B YoY and down \$1.3B LQ as continued paydowns more than offset new originations

Credit Card

- Credit card up \$2.2B YoY reflecting purchase volume and customer growth, and down \$746MM LQ on seasonality

Automobile

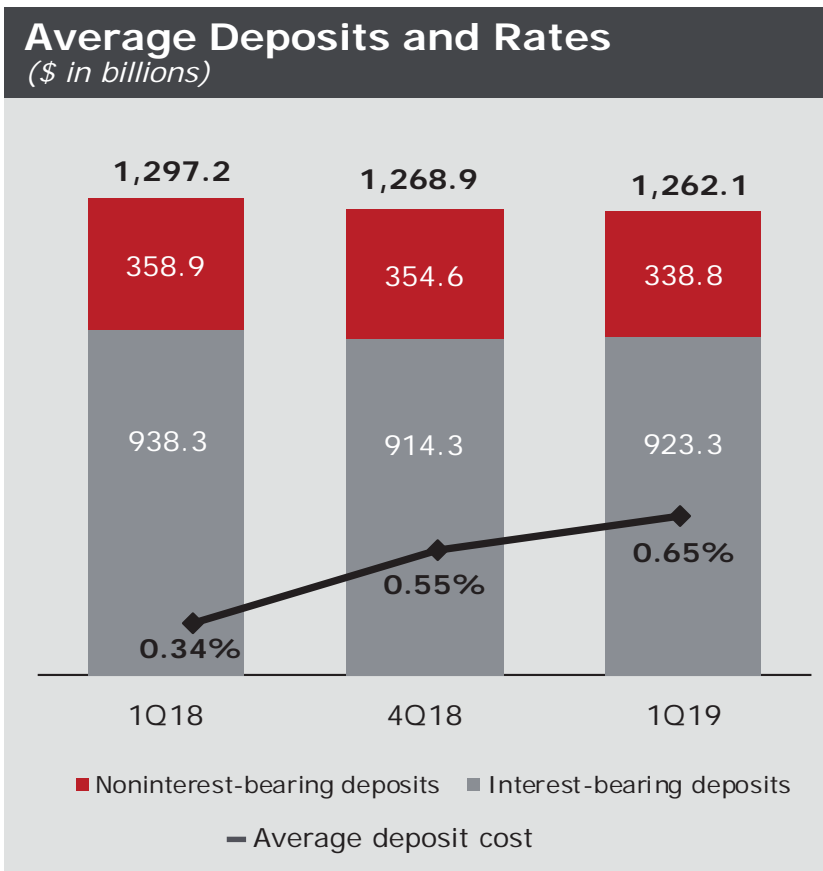

- Auto loans down \$4.6B YoY and \$156MM LQ as paydowns were predominantly offset by originations
 - Originations of auto loans up 24% YoY and 16% LQ
- Currently expect loan balances to grow by mid-year 2019

Other Revolving Credit and Installment

- Other revolving credit and installment loans down \$2.5B YoY and down \$961MM LQ on lower margin loans and other securities-based lending reflecting higher short-term rates and market volatility, as well as lower personal loans and lines, and student loans

Average deposit trends and costs

Average

- Average deposits of \$1.3 trillion, down \$35.1 billion, or 3%, YoY reflecting lower Wholesale Banking deposits including actions taken in the first half of 2018 to manage to the asset cap, as well as lower Wealth and Investment Management (WIM) deposits as customers continued to allocate more cash into higher yielding liquid alternatives
- Average deposits down \$6.8 billion, or 1%, LQ as lower Wholesale Banking deposits driven by seasonality from typically high 4Q levels were partially offset by higher consumer and small business banking deposits ⁽¹⁾
 - Noninterest-bearing deposits down \$20.1 billion, or 6%, YoY and \$15.8 billion LQ
 - Interest-bearing deposits down \$15.0 billion, or 2%, YoY and up \$9.0 billion LQ
- Average deposit cost of 65 bps, up 10 bps LQ; and up 31 bps YoY driven by increases in Wholesale Banking and WIM deposit rates

(1) Total deposits excluding mortgage escrow and wholesale deposits (Wholesale Banking, and Corporate Treasury including brokered CDs).

Deposit beta experience

- Deposit costs have trended higher with the increase in the Fed Funds rate and the repricing lag from prior rate moves
- The cumulative beta over the last year (1Q18-1Q19) of 43% increased from the prior twelve months' (4Q17-4Q18) cumulative beta of 38%

Period-end deposit trends

Period-end

- Period-end deposits of \$1.3 trillion, down \$39.7 billion, or 3%, YoY
- Period-end deposits down \$22.2 billion, or 2%, LQ
 - Wholesale Banking deposits down \$37.0 billion, or 9%, primarily reflecting seasonality from typically high 4Q levels
 - Corporate Treasury deposits including brokered CDs, up \$3.4 billion, or 4%
 - Mortgage escrow deposits up \$2.0 billion, or 10%, LQ primarily reflecting seasonality of tax payments
 - Consumer and small business banking deposits (1) up \$9.4 billion, or 1%, LQ and included:
 - Higher retail banking deposits reflecting seasonality as well as growth in CDs and high-yield savings
 - Lower Wealth and Investment Management deposits driven by our clients shifting cash into investments during the quarter, as well as continued reallocation of cash into other higher yielding liquid alternatives

(1) Total deposits excluding mortgage escrow and wholesale deposits (Wholesale Banking, and Corporate Treasury including brokered CDs).

Net interest income

- Net interest income increased \$73 million, or 1%, YoY, and decreased \$333 million, or 3%, LQ; linked quarter decrease reflected:
 - ~\$160 million lower NII from 2 fewer days in the quarter
 - Balance sheet mix and repricing, including the impact of a flattening yield curve
 - Hedge ineffectiveness accounting results ⁽¹⁾ stable LQ
- Average earning assets down \$2.1 billion LQ:
 - Equity securities down \$4.3 billion
 - Mortgage loans held for sale down \$3.1 billion
 - Short-term investments/fed funds sold down \$1.9 billion
 - Loans up \$3.8 billion
 - Debt securities up \$3.2 billion
- NIM of 2.91% down 3 bps LQ on the impacts of balance sheet mix and repricing, including higher deposit costs

(1) Total hedge ineffectiveness accounting (including related economic hedges) of \$56 million in the quarter included \$85 million in net interest income and \$(29) million in other income. In 4Q18 total hedge ineffectiveness accounting (including related economic hedges) was \$28 million and included \$85 million in net interest income and \$(57) million in other income.

Noninterest expense up \$577 million LQ

- Personnel expense up \$1.5 billion
 - Salaries down \$120 million primarily on two fewer payroll days in the quarter
 - Commission and incentive compensation up \$418 million and included seasonally elevated equity awards, partially offset by lower revenue-related incentive compensation
 - Employee benefits expense up \$1.2 billion on \$785 million higher deferred compensation expense (P&L neutral), and \$498 million of seasonally higher payroll taxes and 401(k) matching expenses
(Please see page 33 for additional information)
- Core deposit and other intangibles expense down \$236 million on lower amortization expense reflecting the end of the 10-year amortization period on Wachovia intangibles
- Outside professional services ⁽²⁾ down \$165 million from typically higher 4Q levels
- Operating losses ⁽²⁾ down \$194 million on lower litigation and remediation accruals
- Other expense ⁽²⁾ down \$364 million from 4Q18 which included a pension plan settlement expense, as well as lower operating lease expense, and typically lower travel and entertainment, and advertising and promotion expense

1Q19 efficiency ratio of 64.4%

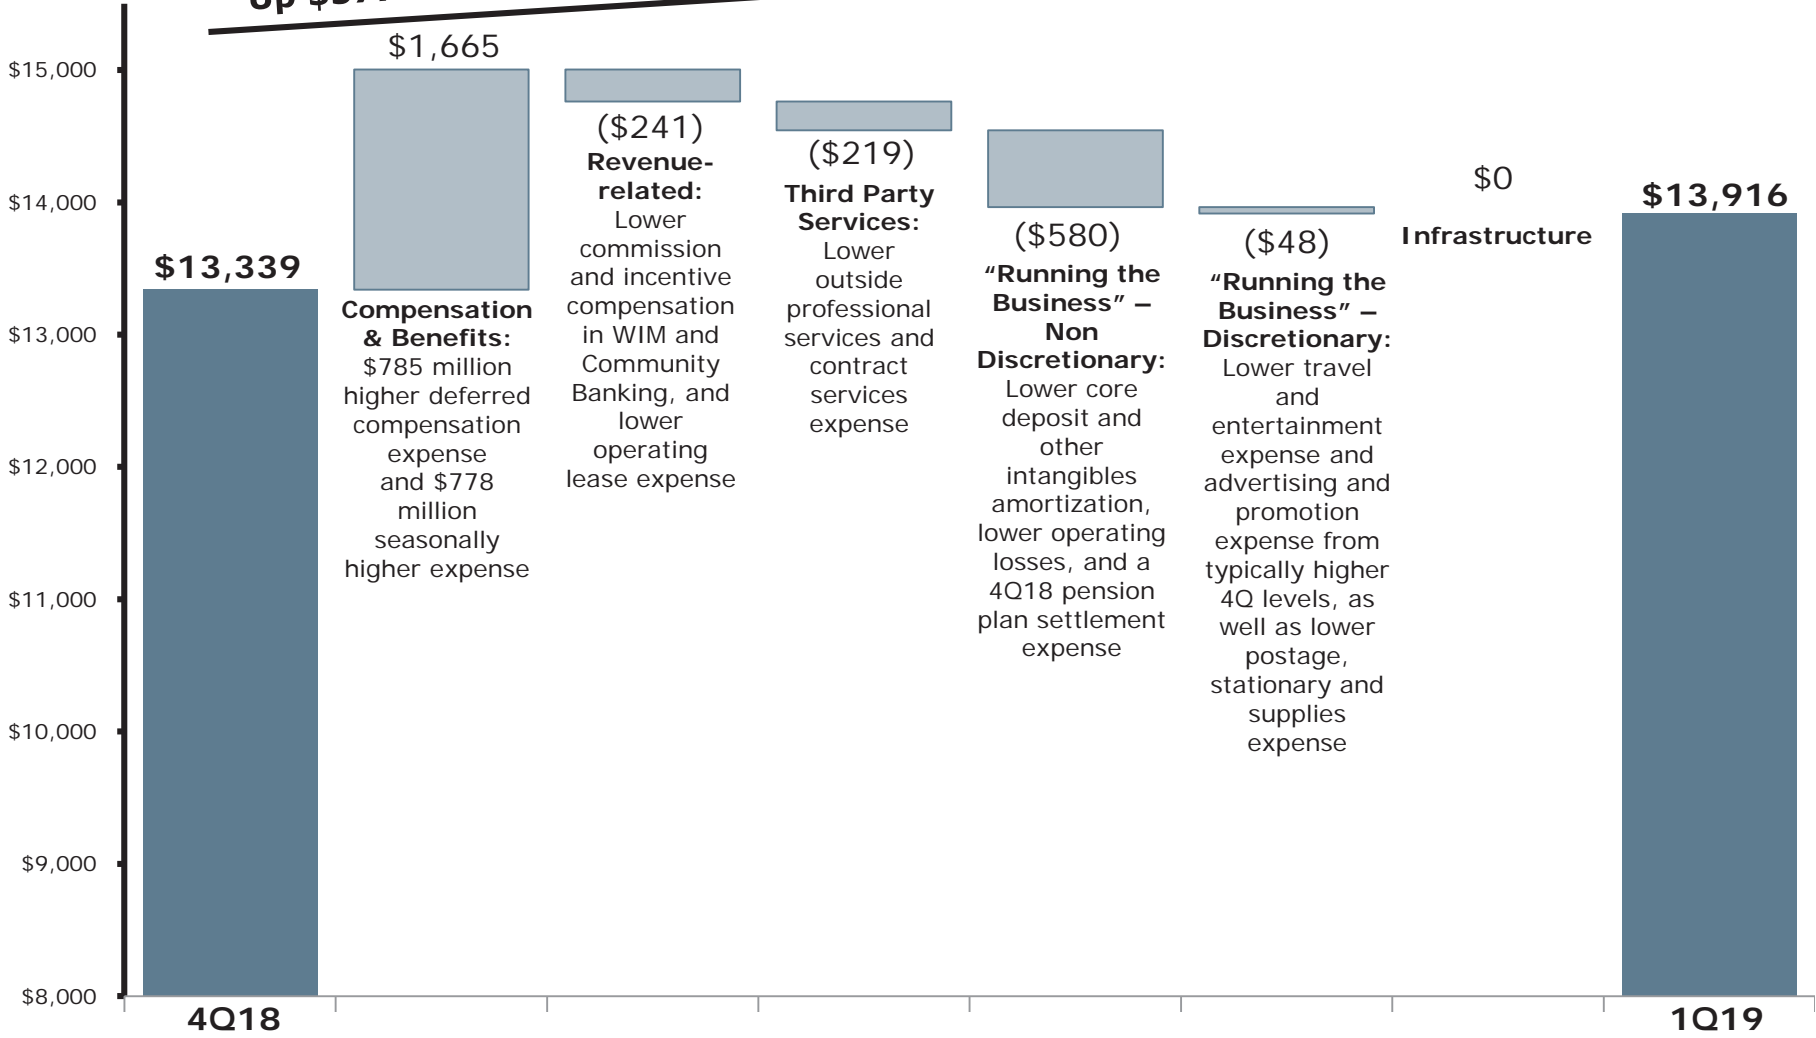

(1) Efficiency ratio defined as noninterest expense divided by total revenue (net interest income plus noninterest income).

(2) The sum of Outside professional services expense, operating losses and Other expense equals Other noninterest expense in the Consolidated Statement of Income, pages 19 and 20 of the press release.

Noninterest expense – linked quarter

(\$ in millions)

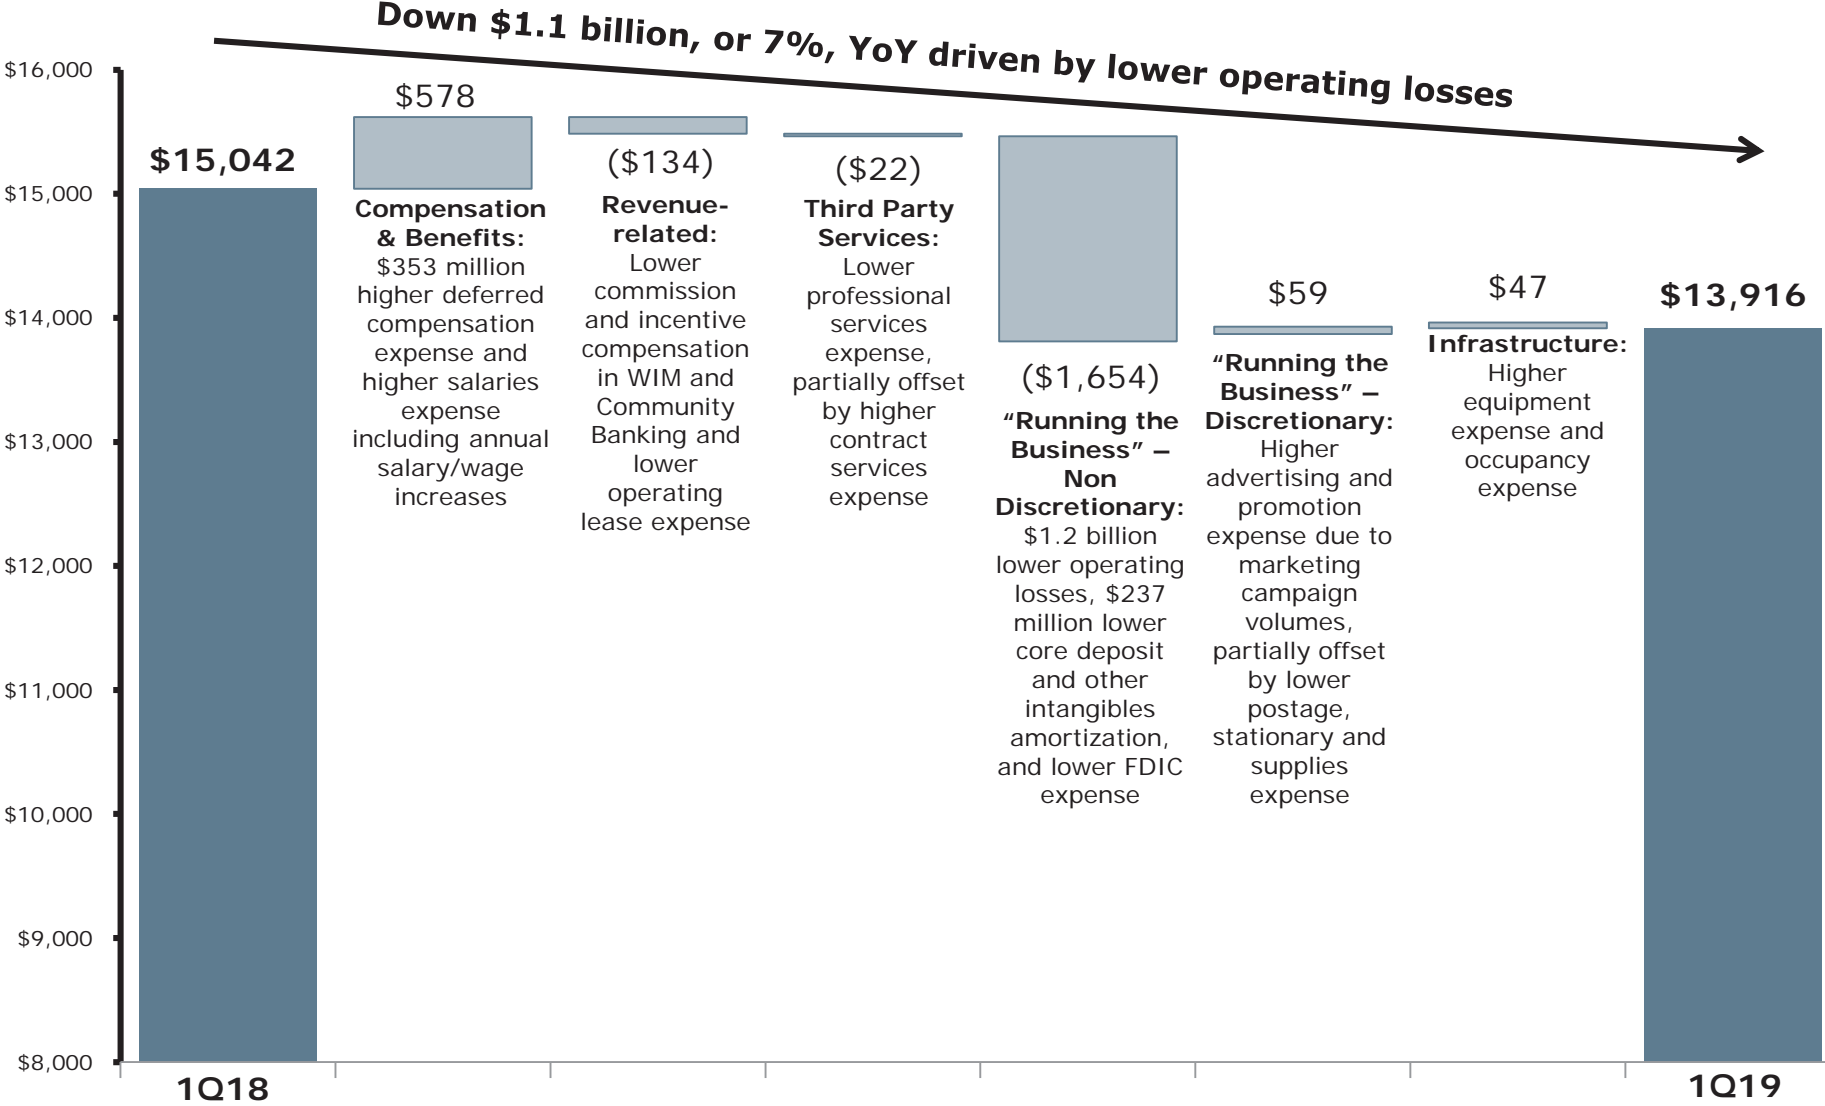

Up \$577 million, or 4%, LQ driven by higher compensation and benefits expense

For analytical purposes, we have grouped our noninterest expense into these six categories. Please see page 35 for additional information.

Noninterest expense – year over year

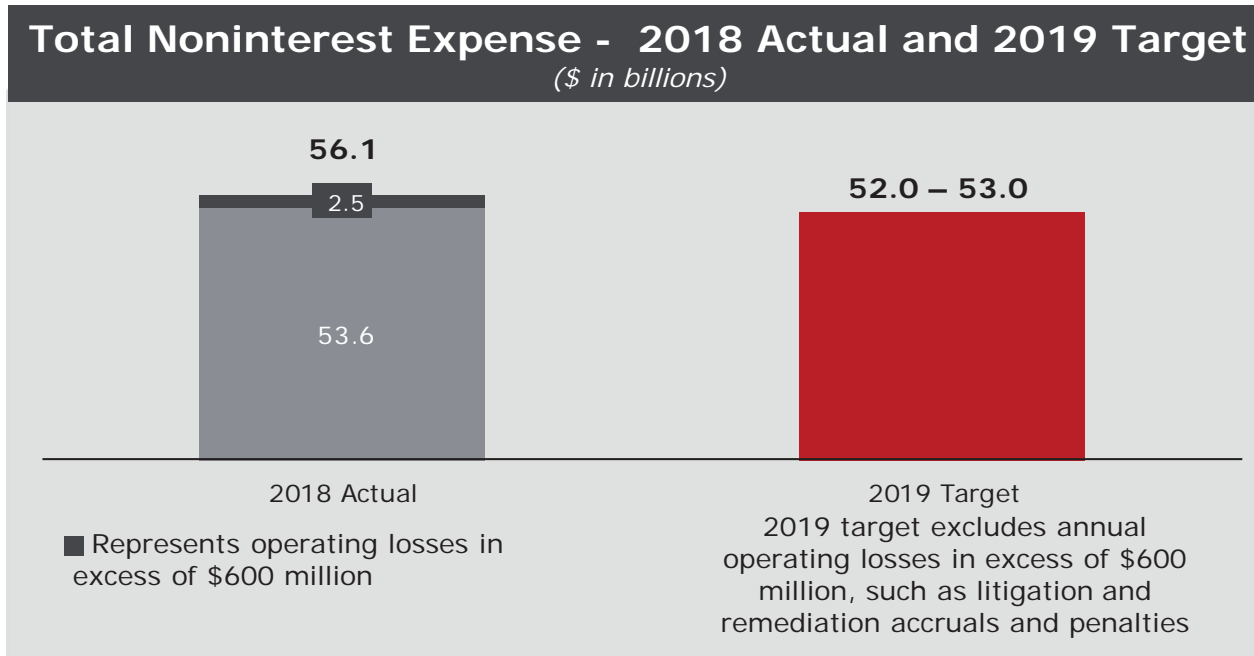

(\$ in millions)

For analytical purposes, we have grouped our noninterest expense into these six categories. Please see page 35 for additional information.

Committed to and on track to meet 2019 expense target

- We are currently on track to meet our 2019 expense target of \$52.0-\$53.0 billion provided at our 2018 Investor Day
- Our 2019 expense target excludes annual operating losses in excess of \$600 million, such as litigation and remediation accruals and penalties

Investments in the business have increased from Investor Day expectations

- Actual and anticipated investment spend for 2018 – 2019 has increased \$1.4 billion from our expectations at our 2018 Investor Day
 - Most significant increase is in the Regulatory Compliance and Operational Risk category
- High priority enterprise investment spend ⁽¹⁾ by major category

■ Expectation provided at 2018 Investor Day
■ Incremental actual expense or anticipated increase to expectation since 2018 Investor Day, as of 1Q19

(1) Management defines these as current high priority projects. What management defines as high priority projects may change in future periods.

Actual and projected savings exceeding original expectations

Continued focus on efficiency has resulted in actual and anticipated savings exceeding 2018 Investor Day expectations

- 2019 expected expense savings come from over 200 distinct new and ongoing savings initiatives. Monthly tracking and reporting by initiative drives accountability.
 - Drivers of largest expected savings in 2019 by category include:
 - Centralization and optimization: Process mapping and optimization; staff function rationalization; contact center of the future
 - Running the business: Mortgage operations streamlining, restructuring Wholesale Banking businesses, WIM brokerage channel alignment, auto lending transformation, and branch staffing efficiencies
 - Governance and controls: Continued reduction in third party services spend, consistent approach to manager span of control, further rollout of activity based expense inspection protocol (essential expense), and real estate location/hiring guidelines for non-customer facing team members

- Average consumer and small business banking deposit balances up modestly LQ, and down 2% YoY as consumers moved excess liquidity to higher rate cash alternatives
- Teller and ATM transactions ⁽¹⁾ of 313.8 million in 1Q19, down 6% LQ and down 9% YoY reflecting continued customer migration to digital channels
- Consumer and small business digital payment transactions ⁽²⁾ of 138.2 million, up 2% LQ and 6% YoY reflecting increased usage and continued increases in digital adoption
- Debit cards ⁽³⁾ and consumer general purpose credit cards ⁽⁴⁾:
 - Point-of-sale (POS) debit card transactions down 4% LQ on seasonality, and up 5% YoY on stronger usage per account
 - POS debit card purchase volume down 4% LQ due to seasonality, and up 6% YoY on higher transaction volume
 - POS consumer general purpose credit card purchase volume down 9% LQ from 4Q holiday spend, and up 5% YoY on higher transaction volume
 - Consumer general purpose credit card average balances of \$30.7 billion, up 1% LQ and up 7% YoY on higher POS purchase volume

(1) Teller and ATM transactions reflect customer transactions completed at a branch teller line or ATM and does not include customer interactions with a branch banker. Management uses this metric to help monitor customer traffic trends within the Company's Retail Banking business.

(2) Metrics reported on a one-month lag from reported quarter-end; for example, 1Q19 data includes December 2018, January 2019 and February 2019.

(3) Combined consumer and business debit card activity.

(4) Credit card metrics shown in the table are for general purpose cards only.

- Net income of \$2.8 billion, down 4% YoY on lower noninterest income, and up 4% LQ reflecting higher noninterest income and lower noninterest expense
- Net interest income flat YoY and down 4% LQ
- Noninterest income up 18% LQ as higher market sensitive revenue, investment banking fees and other income was partially offset by lower loan fees and commercial real estate brokerage fees
- Provision for credit losses increased \$162 million LQ reflecting a reserve build on higher nonaccrual loans, as well as lower recoveries
- Noninterest expense down 5% LQ driven by lower operating lease expense, core deposit and other intangibles amortization, and project-related expenses, partially offset by seasonally higher personnel expense

Treasury Management

- Treasury management revenue down 3% YoY on lower new sales and down 3% LQ on seasonality
- Commercial card spend volume ⁽¹⁾ of \$8.5 billion, up 5% YoY on increased transaction volumes, and down 2% LQ

 - Consumer losses of 51 bps, down 2 bps LQ on seasonally lower automobile and other revolving credit and installment loan losses
- NPAs increased \$394 million LQ
 - Nonaccrual loans ⁽¹⁾ increased \$409 million on a \$609 million increase in commercial nonaccruals driven in part by a borrower in the utility sector, as well as increases in oil and gas, partially offset by a \$200 million decline in consumer nonaccruals driven predominantly by consumer real estate
 - Foreclosed assets decreased \$15 million
- \$150 million reserve build primarily due to a higher probability of slightly less favorable economic conditions, as well as higher commercial nonaccruals
- Allowance for credit losses = \$10.8 billion
 - Allowance covered 3.8x annualized 1Q19 net charge-offs

(1) Financial information for periods prior to December 31, 2018, has been revised to exclude mortgage loans held for sale, loans held for sale and loans held at fair value of \$339 million, \$360 million, and \$380 million at September 30, June 30, and March 31, 2018, respectively.

Capital

Common Equity Tier 1 Ratio (Fully Phased-In) ⁽¹⁾

(1) 1Q19 capital ratio is a preliminary estimate. Fully phased-in capital ratios are calculated assuming the full phase-in of the Basel III capital rules. See page 36 for additional information regarding the Common Equity Tier 1 capital ratio.

(2) 1Q19 TLAC ratio is a preliminary estimate.

Capital Position

- Common Equity Tier 1 ratio (fully phased-in) of 11.9% at 3/31/19 ⁽¹⁾ was well above both the regulatory minimum of 9% and our current internal target of 10%

Capital Return

- Period-end common shares outstanding down 69.3 million shares, or 2%, LQ
 - Settled 97.4 million common share repurchases
 - Issued 28.1 million common shares
- Continued de-risking of the balance sheet and consistent level of profitability have contributed to capital levels well above regulatory requirements and internal targets, enabling significant capital returns to shareholders
 - Returned \$6.0 billion to shareholders in 1Q19, up 49% YoY
 - Net share repurchases of \$3.9 billion, 1.9x net share repurchases in 1Q18
 - Quarterly common stock dividend of \$0.45 per share, up 5% from \$0.43 per share in 4Q18, and up 15% YoY

Total Loss Absorbing Capacity (TLAC) Update

- As of 3/31/2019, our eligible external TLAC as a percentage of total risk-weighted assets was 23.9% ⁽²⁾ compared with the required minimum of 22.0%

Deferred compensation plan investment results

- Wells Fargo's deferred compensation plan allows eligible team members the opportunity to defer receipt of current compensation to a future date
- Certain team members within Wholesale Banking, and Wealth and Investment Management have mandatory deferral plans as part of their incentive compensation plans
- To neutralize the impact of market fluctuations resulting from team member elections, which are recognized in employee benefits expense, we enter into economic hedges through the use of equity securities and the offsetting revenue is recognized in net interest income and net gains from equity securities

- Trading-related revenue of \$1.2 billion was up \$353 million, or 44%, LQ:
 - Net interest income increased \$6 million, or 1%
 - Net gains on trading activities increased \$347 million primarily driven by credit and asset-backed products on strong trading volumes, as well as increased equity trading on tighter credit spreads, and higher municipal bond trading activity
- Trading-related revenue was up \$257 million, or 29%, YoY:
 - Net interest income up \$143 million, or 22%, largely driven by higher average trading assets predominantly reflecting increased customer demand for RMBS, and U.S. Treasury and agency bonds, as well as higher yields
 - NII associated with the carry income on the RMBS book has offsetting losses in net gains on trading activities (neutral to total trading-related revenue)
 - Net gains on trading activities up \$114 million reflecting increased trading in asset-backed securities driven by higher RMBS trading volumes, as well as stronger credit trading

Noninterest expense analysis (reference for slides 16-17)

For analytical purposes, we have grouped our noninterest expense into six categories:

Compensation & Benefits: Salaries, benefits and non-revenue-related incentive compensation

Revenue-related: Incentive compensation directly tied to generating revenue; businesses with expenses directly tied to revenue (operating leases, insurance)

Third Party Services: Expenses related to the use of outside parties, such as legal and consultant costs

“Running the Business” – Non Discretionary: Expenses that are costs of doing business, including foreclosed asset expense and FDIC assessments

“Running the Business” – Discretionary: Travel, advertising, postage, etc.

Infrastructure: Equipment, occupancy, etc.

- (1) Basel III capital rules, adopted by the Federal Reserve Board on July 2, 2013, revised the definition of capital, increased minimum capital ratios, and introduced a minimum Common Equity Tier 1 (CET1) ratio. The rules are being phased in through the end of 2021. Fully phased-in capital amounts, ratios and RWAs are calculated assuming the full phase-in of the Basel III capital rules. Beginning January 1, 2018, the requirements for calculating CET1 and tier 1 capital, along with RWAs, became fully phased-in.
- (2) Represents goodwill and other intangibles on nonmarketable equity securities, which are included in other assets.
- (3) Applicable deferred taxes relate to goodwill and other intangible assets. They were determined by applying the combined federal statutory rate and composite state income tax rates to the difference between book and tax basis of the respective goodwill and intangible assets at period end.
- (4) The final Basel III capital rules provide for two capital frameworks: the Standardized Approach, which replaced Basel I, and the Advanced Approach applicable to certain institutions. Under the final rules, we are subject to the lower of our CET1 ratio calculated under the Standardized Approach and under the Advanced Approach in the assessment of our capital adequacy. Because the final determination of our CET1 ratio and which approach will produce the lower CET1 ratio as of March 31, 2019, is subject to detailed analysis of considerable data, our CET1 ratio at that date has been estimated using the Basel III definition of capital under the Basel III Standardized Approach RWAs. The capital ratio for December 31, September 30, June 30 and March 31, 2018, was calculated under the Basel III Standardized Approach RWAs.
- (5) The Company's March 31, 2019, RWAs and capital ratio are preliminary estimates.

- (1) Tangible common equity is a non-GAAP financial measure and represents total equity less preferred equity, noncontrolling interests, and goodwill and certain identifiable intangible assets (including goodwill and intangible assets associated with certain of our nonmarketable equity securities but excluding mortgage servicing rights), net of applicable deferred taxes. The methodology of determining tangible common equity may differ among companies. Management believes that return on average tangible common equity, which utilizes tangible common equity, is a useful financial measure because it enables investors and others to assess the Company's use of equity.
- (2) Represents goodwill and other intangibles on nonmarketable equity securities, which are included in other assets.
- (3) Applicable deferred taxes relate to goodwill and other intangible assets. They were determined by applying the combined federal statutory rate and composite state income tax rates to the difference between book and tax basis of the respective goodwill and intangible assets at period end.

Forward-looking statements:

This document contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. In addition, we may make forward-looking statements in our other documents filed or furnished with the SEC, and our management may make forward-looking statements orally to analysts, investors, representatives of the media and others. Forward-looking statements can be identified by words such as “anticipates,” “intends,” “plans,” “seeks,” “believes,” “estimates,” “expects,” “target,” “projects,” “outlook,” “forecast,” “will,” “may,” “could,” “should,” “can” and similar references to future periods. In particular, forward-looking statements include, but are not limited to, statements we make about: (i) the future operating or financial performance of the Company, including our outlook for future growth; (ii) our noninterest expense and efficiency ratio; (iii) future credit quality and performance, including our expectations regarding future loan losses and allowance levels; (iv) the appropriateness of the allowance for credit losses; (v) our expectations regarding net interest income and net interest margin; (vi) loan growth or the reduction or mitigation of risk in our loan portfolios; (vii) future capital or liquidity levels or targets and our estimated Common Equity Tier 1 ratio under Basel III capital standards; (viii) the performance of our mortgage business and any related exposures; (ix) the expected outcome and impact of legal, regulatory and legislative developments, as well as our expectations regarding compliance therewith; (x) future common stock dividends, common share repurchases and other uses of capital; (xi) our targeted range for return on assets, return on equity, and return on tangible common equity; (xii) the outcome of contingencies, such as legal proceedings; and (xiii) the Company’s plans, objectives and strategies. Forward-looking statements are not based on historical facts but instead represent our current expectations and assumptions regarding our business, the economy and other future conditions. Investors are urged to not unduly rely on forward-looking statements as actual results could differ materially from expectations. Forward-looking statements speak only as of the date made, and we do not undertake to update them to reflect changes or events that occur after that date. For more information about factors that could cause actual results to differ materially from expectations, refer to the “Forward-Looking Statements” discussion in Wells Fargo’s press release announcing our first quarter 2019 results and in our most recent Quarterly Report on Form 10-Q, as well as to Wells Fargo’s other reports filed with the Securities and Exchange Commission, including the discussion under “Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2018.

Purchased credit-impaired loan portfolios:

Loans acquired that were considered credit impaired at acquisition were written down at that date in purchase accounting to an amount estimated to be collectible and the related allowance for loan losses was not carried over to Wells Fargo’s allowance. In addition, such purchased credit-impaired loans are not classified as nonaccrual or nonperforming, and are not included in loans that were contractually 90+ days past due and still accruing. Any losses on such loans are charged against the nonaccretable difference established in purchase accounting and are not reported as charge-offs (until such difference is fully utilized). As a result of accounting for purchased loans with evidence of credit deterioration, certain ratios of Wells Fargo are not comparable to a portfolio that does not include purchased credit-impaired loans.

In certain cases, the purchased credit-impaired loans may affect portfolio credit ratios and trends. Management believes that the presentation of information adjusted to exclude the purchased credit-impaired loans provides useful disclosure regarding the credit quality of the non-impaired loan portfolio. Accordingly, certain of the loan balances and credit ratios in this document have been adjusted to exclude the purchased credit-impaired loans. References in this document to impaired loans mean the purchased credit-impaired loans. Please see the “Risk Management—Credit Risk Management—Purchased Credit-Impaired (PCI) Loans” section and Note 1 (Summary of Significant Accounting Policies) and Note 6 (Loans and Allowance for Credit Losses) to Financial Statements in our Annual Report on Form 10-K for the year ended December 31, 2018, for additional information regarding purchased credit-impaired loans.
