CDs mature and are payable at the expiration of a specified term, which will be no less than seven calendar days after the date of deposit. The CD’s maturity date is the last day of the term for the CD and is printed on your receipt.

For new Certificate of Deposit (CD) accounts that are not fully funded due to the source funds not being received or being returned unpaid, Wells Fargo may close the account. For existing Certificate of Deposit (CD) accounts where additional funds are added to the account but those incremental funds are not received or are returned unpaid, Wells Fargo may adjust the account balance and interest accrued accordingly.

Overdraft Protection, Effective July 25, 2023

In the section of the Agreement titled “Available Balance, Posting Transactions, and Overdraft,” the subsection titled “overdraft Protection” is deleted and replaced with the following:

Overdraft Protection

This is an optional service you can add to your checking account by **linking up to two eligible Wells Fargo accounts (one savings, one credit) to authorize or pay your transactions if you don’t have enough available money in your checking account.** Overdraft Protection transfers/advances may occur to cover pending transactions, even if these transactions are not subsequently presented for payment. When an Overdraft Protection transfer occurs from a linked savings account to cover the authorization or payment of a transaction, the available balance in that savings account will be reduced by the amount of money to be transferred. That amount of money will be unavailable for other use, and it will be applied to the checking account during nightly processing. If you link two accounts, you may tell us which account to use first to transfer/advance funds. If you don’t specify an order, we’ll first transfer funds from your linked savings account. If an account you’ve linked for Overdraft Protection is restricted by court order or any other reason, we may delink that account as a source for Overdraft Protection. If the restriction is subsequently removed, the prior linkage is not generally reapplied unless you request to re-establish the linkage.

Overdraft Protection isn’t available for all accounts. Refer to the Consumer Schedule or the Business Schedule for account eligibility and additional details.
